

**733530**

Für diesen Steckverbinder definiert Lumberg die unten dargestellten Kodierungen. Auslieferungszustand ist immer K99 (alle Kodierstifte vorhanden), das Kodierschneiden erfolgt während des Konfektionierens.

**Steckweise direkt**, auf die Leiterplattenfläche:  
 Kodierung durch Kodierstifte und dazu passende Bohrungen in der Leiterplatte

\* Steckrichtung

**733530**

For this connector, Lumberg defines the keyings listed below. State of delivery is always K99 (all keying pins present), the keyings are cut during the harnessing process.

**Direct connection**, with the printed circuit board surface:  
 Keying by means of keying pins and matching bore holes in the circuit board

\* mating direction
